

AMENDMENTS TO THE CLAIMS

1. (Original): An absorbent product comprising cellulosic fibers reacted with an effective amount of a crosslinking agent in the presence of an effective amount of a C₄ – C₁₂ polyol wherein the individualized intrafiber crosslinked cellulosic fibers are characterized by a Whiteness Index, (WI_{CDM-L}), greater than about 69.0.
2. (Original): The product of Claim 1 wherein the individualized intrafiber crosslinked cellulosic fibers have an *L* value greater than about 94.5.
3. (Original): The product of Claim 1 wherein the intrafiber crosslinked cellulosic fibers have an *a* value greater than about -1.55 and less than about -0.60.
4. (Currently amended): The product of Claim 1 wherein the intrafiber crosslinked cellulosic fibers have a *b* value less than about 8.5.
5. (Currently amended): The product of ~~Claim~~ Claim 1 wherein the crosslinking agent is an α -hydroxy polycarboxylic acid.
6. (Original): The product of Claim 5 wherein the crosslinking agent is selected from the group consisting of malic acid, tartaric acid, citric acid, tartronic acid, α -hydroxyglutaric acid, and citramalic acid and mixtures thereof.
7. (Original): The product of Claim 6 wherein the crosslinking agent is malic acid.
8. (Original): The product of Claim 6 wherein the crosslinking agent is citric acid.
9. (Original): The absorbent product of Claim 1 wherein the polyol is selected from the group consisting of acyclic polyols, alicyclic polyols, and heterosides and mixtures thereof.
10. (Original): The product of Claim 9 wherein the acyclic polyol is sorbitol.
11. (Original): The product of Claim 9 wherein the alicyclic polyol is myo-inositol.
12. (Original): The product of Claim 9 wherein the heteroside is maltitol.
13. (Original): The product of Claim 9 wherein the heteroside is lactitol.
14. (Original): The product of Claim 1 wherein the intrafiber crosslinked cellulosic fibers have a brightness greater than about 79.0% ISO brightness.

15. (Original): The product of Claim 1 further comprising fluff pulp fibers.
16. (Original): The product of Claim 1 further comprising superabsorbent material.
17. (Original): The product of Claim 1 wherein the product is an infant diaper.
18. (Original): The product of Claim 1 wherein the product is an adult incontinence product.
19. (Original): The product of Claim 1 wherein the product is a feminine hygiene product.
20. (Original): The product of Claim 1 wherein the product is at least one of a tissue or towel.
